

# Discover the Difference:

 **aeroseal**® for a Better Home Environment

## Did You Know...

**Air leakage in the average home is 25-40% of system capacity!**

- Reduce duct leakage by up to 95% and your energy bills by up to 30%
- Improve thermal comfort by helping eliminate the hot & cold spots
- Lower your utility bills and improve your system efficiency
- You'll get a full report showing BEFORE and AFTER results
- Our average system improvement is an 84% reduction in overall leakage
- We're quick and efficient – in and out within a few short hours!

### Reliably Comfy

Enjoy every room in your house. No more hard-to-heat spaces. You'll even sleep better.

### Real Savings

Realize an annual savings of up to \$850 per year on your heating and cooling bill!

### Better Performance

You'll get the most out of your system – more air from your vents and longer system life.

### Eco-Friendly Home

Be proud of a more efficient home. You'll save money and the planet at the same time.

Proudly Serving the Lower Mainland from Whistler to Hope
